Subject: Tritium Sampling and Analysis Plan for the Lawrence Berkeley National Laboratory

Reference: Environmental Protection Agency (EPA) Letter of March 6, 2001

Dear Mr. McGraw:

Enclosure (1) is the Environmental Protection Agency's (EPA) concurrence on the Draft Soil, Sediment, and Surface Water Sampling Plan for Tritium for the Lawrence Berkeley National Laboratory (LBNL) dated March 6, 2001. In addition, the Department of Energy (DOE) approves of this sampling plan. At their meeting in January, the Environmental Sampling Task Force approved this sampling plan contingent on approval by DOE and concurrence by the EPA.

Given that all parties are in agreement, we authorize you to start sampling.

If you have any questions, please contact Carl Schwab at 510-486-4298.

Sincerely,

*Nattie Carwell*

*for* Richard H. Nolan  
Director  
Berkeley Site Office

Enclosure: 1) Environmental Protection Agency Letter of March 6, 2001
